### JURIEN BAY POLICE NEWS

Further to the media release a few weeks ago regarding the wearing of bicycle helmets Jurien Bay Police are pleased to see that most adults and children are now wearing helmets in Jurien Bay and Cervantes. This area received an increased focus after a young boy was hit by a vehicle whilst riding his bicycle in Jurien Bay. He received head and facial injuries and was not wearing a helmet at the time. The month of March has been a 'Bicycle education month', where all adults and children not wearing a helmet have been stopped and cautioned" said Sergeant Darren Slynns. Local police have attended the schools to help educate the parents and children of this requirement. As of April 2014 a \$50.00 infringement will be issued to any rider not wearing a securely fitted helmet. This means it must be corrected fastened to the riders head.

**For those who only receive the School newsletter perhaps the local school might like to include this in their newsletter so that the children and parents are aware that the helmet is an essential piece of equipment that goes with the bicycle.**

# ENEABBA PRIMARY SCHOOL

## COMMUNITY UPDATE

### From the Principal

Welcome to the first of our revised community update bulletins. These will become a regular part of our communication strategy between the school and the wider community.

Mr Chris Burgess, Principal

### Swimming Champions!

Congratulations to our students for winning the North Midlands Primary Interschool Swimming Carnival that was held recently in Three Springs. A big thank you to staff and parents for your assistance in leading up to this event.

### A current school focus:

Developing students' mathematical vocabulary

### Why we are doing this:

Mathematical language is crucial to a child's development of thinking. If children don't have the vocabulary to talk about division, or perimeters, or numerical difference, they can not make progress in understanding these areas of mathematical knowledge.

### How we are doing this:

- \* Explicit teaching of mathematical words.
- \* Use of classroom environmental print.
- \* Identifying multiple words that link to a similar concept.
- \* Highlighting how understanding mathematical language allows us to solve relevant problems.

### Upcoming Events

31<sup>st</sup> March- School Photos

3<sup>rd</sup> April- Early close due to reporting student progress.

10<sup>th</sup> April- Loud Shirt Day (proceeds to the Telethon Children's' Research Centre)

## Why is Playgroup important??

While it may look your child is just playing with the other kids or sitting quietly, they are learning!

- ✿ how to play and interact with other children
- ✿ experiencing new play and art activities
- ✿ improving problem solving skills

Playgroup is great for mum's too!

- ✿ make new friends
- ✿ reduce isolation
- ✿ share concerns, ideas, experiences

## ACT NOW! SHOW YOUR SUPPORT FOR CONTINUED NRM AND LANDCARE FUNDING

25 March 2014

The current Australian Landcare and NRM programs support activity at the regional, sub-regional and local level in Western Australia.

This is incredibly important funding for all people and groups that do work on land, biodiversity, coastal and marine and other natural resources. This includes small community groups, farmer R&D groups, all the way through to the seven regional NRM organisations, and NGO's in this sector.

This current budget cycle is a very tough one. Everyone understands the fiscal constraints faced by the current Australian Government. However it is critical that the Australian Government hears how important this funding is to you, your community and your community group (whatever level you are at).

The total level of NRM funding to WA in the four year budget cycle is approx \$117M. (This does not include other programs such as climate change and the biodiversity fund.) This funding is currently committed, and contracts are signed, but we need to make sure the new Government honours these contracts to the letter in the budgetary processes.

Please take this opportunity to ring your local Member, your WA Senators, other WA MP's and any Ministers you are able to contact.

When you ring ensure the office logs your call and understands your 100% COMMITMENT to ensuring the current funding levels to the Australian Landcare and NRM programs. At this stage, time is critical so don't write a letter or email – make lots of phone calls.

Please call your local MP, and ensure other members of your community group do the same. It would be extremely timely to ring all WA Senators who are contesting Senate seats in the upcoming senate election. Please ask that they pass this feedback onto Minister Hunt (Minister for the Environment) and Minister Joyce (Minister for Agriculture). Please also log a call to the Ministers Offices and their electorate offices.

If you care about looking after your own local, natural environmental assets – your soils, your beaches, your native flora and fauna - now is the time to make calls to express your STRONG SUPPORT for the funding of this sector.

Act Now... the outcome from budget processes is in your hands.

## ABROLHOS RESEARCH PROJECT DONATES TO SILVER CHAIN

25 March 2013

The Abrolhos Islands Silver Chain Nursing Association today received a donation from Abrolhos Islands fishers, and the Seeing Change Project.

The donation came from sales of the publication *'Seeing Change: A photographic story from Abrolhos fishers'*, which forms part of Ms Jenny Shaw's Ph.D. research at the Islands, with collaboration from the fishing industry's Ms Leonie Noble, the Abrolhos Island community, the Department of Fisheries and many others.

Ms Shaw collected photographs from fishers' and, with support from the WA Museum, mounted a moving exhibition documenting changes occurring at the Islands as a result of changed fishing conditions. Shown at WA Museum Geraldton, Albany and the Fremantle Maritime Museum, the exhibition went on to win multiple national and state awards.

Recognising the importance of this documentary evidence, the Northern Agricultural Catchments Council commissioned the Museum to morph the exhibition into the publication *'Seeing Change: A photographic story from Abrolhos fishers'*.

The publication, available for a \$5 donation from the NACC office and the WA Museum - Geraldton, has proven popular across WA.

The donation to the Abrolhos Islands Silver Chain Nursing Association came from a portion of the sales and further donations to Silver Chain will follow throughout the life of the publication.

The publication tells a compelling story of social and environmental change in the Abrolhos Islands fishing community.

Left to right: NACC's Shelley Spriggs, Department of Fisheries Greg Finlay, project drivers Jenny Shaw and Leonie Noble, and Silver Chain's Amanda Murray.
