SUMMARY

The Shire has historically utilised the capacity with the Local Government Act to adopt differential rates. Differential rates enables a local government to best apportion the rates burden across the district in a fair and consistent manner.

Local Government costs across Western Australia have risen significantly over the past 12 months, much of which is attributed to the changing financial circumstances of the Western Australian economy and the subsequently difficult financial position the State Government finds itself now in.

Officers have considered the impacts upon the Shire as a result of these cost increases and this report outlines the necessary 2019/20 rating levels if Council wishes to maintain a “status quo” position in respect to its capacity to service its community and maintain its other responsibilities.

BACKGROUND

Where infrastructure other than that required for the normal operations of a rural property is in place, Council has the opportunity to rate that section of the property using a Gross Rental Valuation rather than an Unimproved Valuation.

In June 2009 Council resolved to adopt differential rating to ensure that the apportionment of the rates burden across the district is undertaken in a fair and consistent manner, and that rating bases are not eroded due to differing methods and periods of revaluation, land usage and impact of operations on shire resources.

Section 6.36 of the Local Government Act 1995 requires Council to give at least 21 days public notice of its intention to impose differential rates, and invite public submissions. Council is also required to consider any submissions received prior to imposing the proposed rate or minimum payment. Council at its budget meeting can adopt the advertised rates, or resolve to adopt a modified version of them.

COMMENT

The Local Government Act requires every local government to take into account Council’s Corporate Business Plan and the Long Term Financial Plans when preparing its annual budget.

The proposed rates are based on the need to deliver a 3.4% increase in revenue raised from rates compared to the 2018/19 year.

The unimproved valuation rolls supplied by the Valuer General’s Office has seen the unimproved valuations of rural properties increase by approximately 8.5% for 2019/20.

During the visit by the WA Local Government Grants Commission in 2014 it was noted that the rate revenue from residential, commercial, industrial, and the mining sector was less than the Commission's assessed capacity and that the rural sector was contributing more.

There are several significant budget challenges that the Shire will face in 2019/20 and these are highlighted below -

1. Recruitment of a new CEO and training of several new staff
2. In 2018/19 there was a loss of rate revenue of approx \$89,000 as a result of appeals against the valuations on some GRV mining rated properties.
3. The normal annual inflationary type impacts to accommodate on Council's operating costs, including but not limited to, electricity and water charges, incremental wage increases, insurance and regulatory requirements associated with the valuation of road and infrastructure assets.
4. The economic forecast for the 2019/20 CPI is 1.75% and the wage price index is 2.25%

Council's long term financial plan forecasts that Council needs to raise \$1,953,000 in rates for the 2019/20 financial year.

With the above points in mind, and to achieve the required rate revenue, it is proposed that Council increase / (decrease) the Rate in the "\$" for each rate category as follows:

	2018/19	2019/20	% + / (-)
GRV Carnamah & Eneabba	0.149760	0.154852	3.4%
UV Rural & Mining	0.019459	0.018583	(4.5%)
GRV Mining (Differential Rate)	0.299520	0.309704	3.4%
GRV Rural (Differential Rate)	0.149760	0.154852	3.4%

It is also proposed that the general minimum rate be increased by 2% from \$755.00 to \$770.00. This is to achieve the objective of setting a reasonable minimum contribution that property owners should make to the community facilities and services that the Shire provides.

To comply with legislation (LGA 1995 Sect 6.35) Council will need to have a lower minimum rate for the rating category of GRV Rural compared to the rating categories of GRV town sites and GRV Mining and UV Rural.

It is proposed that the GRV Rural minimum rate be decrease from \$389.00 to \$380.00

As Council is not imposing a differential general rate which is more than twice the lowest differential general rate Council is does not have to seek Ministerial approval.

The draft budget generally maintains the capacity to accommodate a similar level of services and facilities to past years, and also contains the following capital works. Roadworks grants in the main provide a significant revenue stream for several of the below projects, but in most instances these also require contributory Shire funding allocations to be made.

Project	Budget
Continued widening & sealing - Eneabba Coolimba Rd	\$2,100,000

File Ref:	ADM0072

Date:	14 June 2019

SUMMARY

This report recommends Council delete policy 8.11.

BACKGROUND

Council originally adopted this policy in 2013, and amended it in 2018, to meet the requirements of the Local Government Financial Management Regulation 17A (FMR17A).

COMMENT

A recent review of this policy has revealed that no longer complies with FMR 17A and needs to be deleted.

The current policy excludes the following assets with historical cost below a nominated value from having to be revalued:

Asset Class	Nominated Value
Plant & Equipment	\$50,000
Furniture & Equipment	\$10,000

Under FMR 17A (5), the only assets that can be excluded from fair valuation are those assets that cost less than \$5,000 at the time of acquisition.
